

Students – An Incredible Learning Opportunity:

An Industrial-Strength Relational Database Management System

>>>>> ▪ **Used by...**

- The top 56 banks in the world
- 23 of the top 25 U.S. retailers
- 9 of the top 10 global life/health insurance providers
- **Performance, Performance, and Performance**
 - Delivered the largest banking benchmark ever at the Bank of China, a record 9,445 transactions per second
 - Supports the world's largest known peak database workload - 1.1 billion SQL statements per hour at UPS
 - The world's largest known transaction processing database – 23.1 TB at UK Land Registry

- Want to know the inside secrets of this database?
- Want to have hands-on experience with this database?
- Want to get an internship in developing, testing, and/or applying this database?

If you answered YES to any of the above questions, you should consider taking one of the following new courses:

CS 185C Sec. 1: Fundamentals of IBM DB2 for z/OS

CS 185C Sec.2: Application Development with IBM DB2 for z/OS

Students from the Colleges of Science, Engineering, and Business are all welcome. Open University enrollment is also possible. See the syllabi at http://www.cs.sjsu.edu/class_schedule/Schedule.html for more information, or email Dr. Teng Moh at tsmoh@cs.sjsu.edu.
